### Functionalities

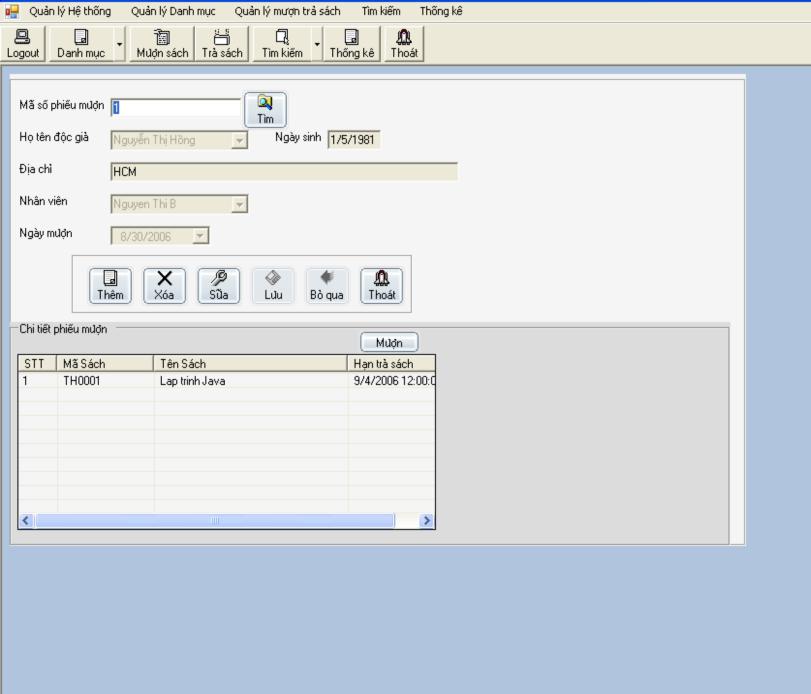

- System mangement
  - Login/Logout
  - Backup/ restore
- Data Category management:
  - Members, Publisher, Employee, Book, Book category, ...
- Borrow/return
- Search: search by member, book, ...
- Statistics: how often a reader borrow a book at the library? Books returned in late? The most ordered book?...

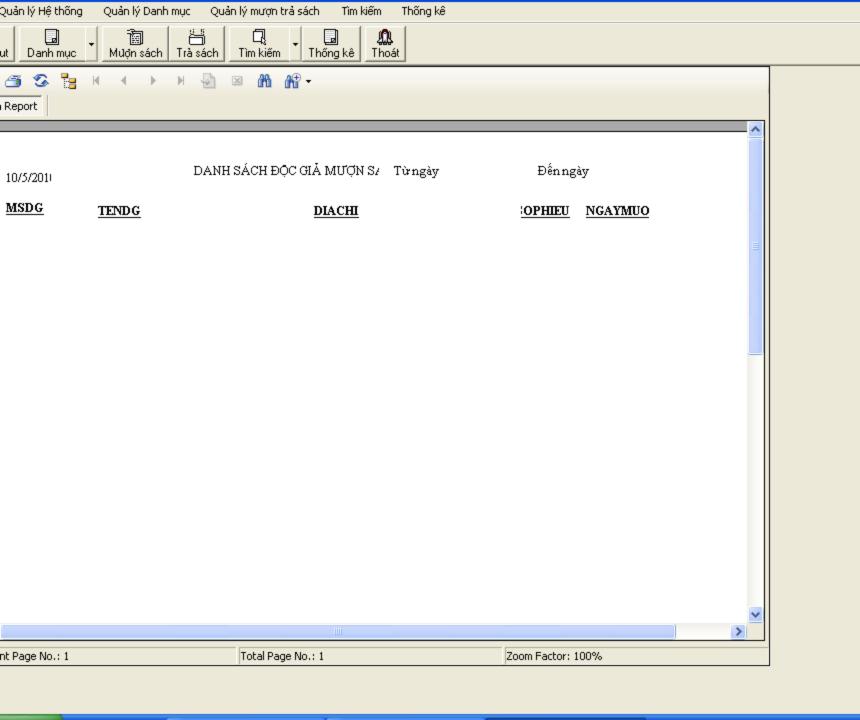

# Login

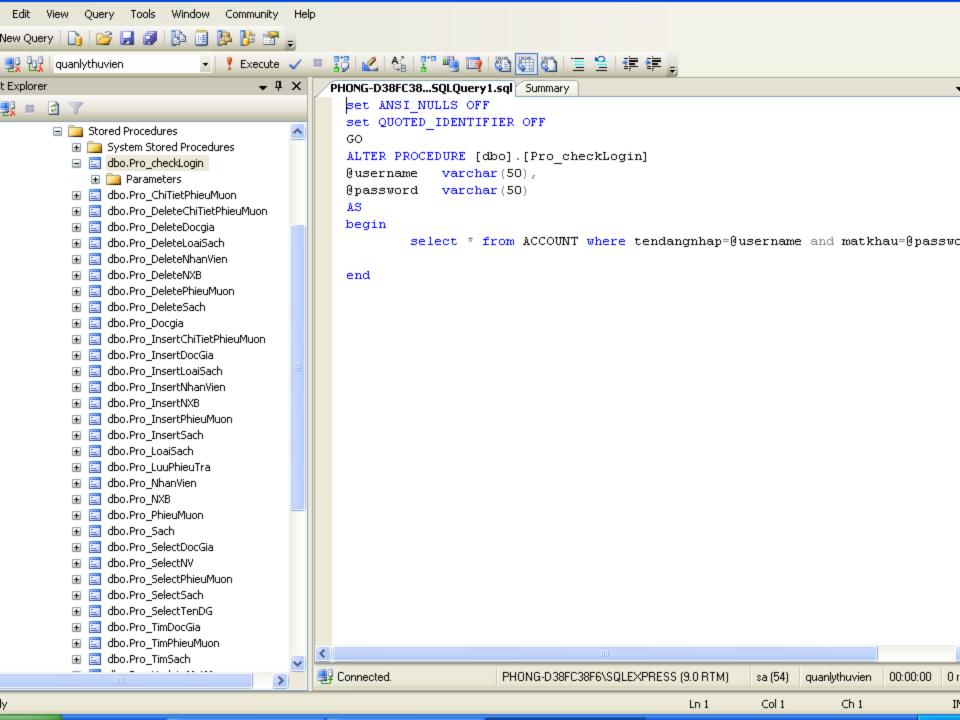

### Lập trình

- C#
- SQL server
- Dùng procedure: đoạn script chạy trên server, dùng chung được

# Tìm hiểu Thuật ngữ

- ODBC
- JDBC
- JDBC-ODBC bridge
- OLEDB
- ADO
- DAO
